

### *The First Open Bore MRI*

The Magnetom Espree 1.5T by Siemens comes with the **shortest 1.5 Tesla magnet** available. It can perform advanced clinical applications with the Tim Technology (Total Imaging Matrix) that delivers high quality imaging and **reduced exam times**. Whole body scans can be performed in **one single pass**.

### *More space, less claustrophobia*

The Magnetom Espree 1.5T is an open bore MRI system that allows a new level of comfort for our patients. This system has an opening of almost 2.3 feet in diameter to provide a **full foot of space over the patient's head**.

**NEW STATE OF THE  
ART OUTPATIENT  
IMAGING CENTER IN  
A COMFORTABLE  
AND CONVENIENT  
SETTING**

*330 Wallace Road, Suite 1  
Nashville, TN 37211*

*Feet first, head out!*

For many exams, your feet go in first and your head remains outside of the system. That has never been possible before in Open MRI. But most important of all, the **power is 3 times greater** than the conventional Open and assures that you get the most confident diagnosis.

***Your MRI will be read by the best!***

Professional Services will be provided by **ProScan Reading Services**, one of the world's most experienced providers of teleradiology services. PRS delivers high-end interpretations conducted by board-certified, fellowship-trained Radiologists with **subspecialty training** in multiple advanced imaging areas.

***We accept all major insurances, Worker's Comp, accidents, and self-pay!***

*Table can handle up to 500 lbs!*

The new open bore design of the **MAGNETOM Espree** accommodates patients of most sizes and eliminates anxiety and claustrophobia.
